

## INOVA Diagnostics

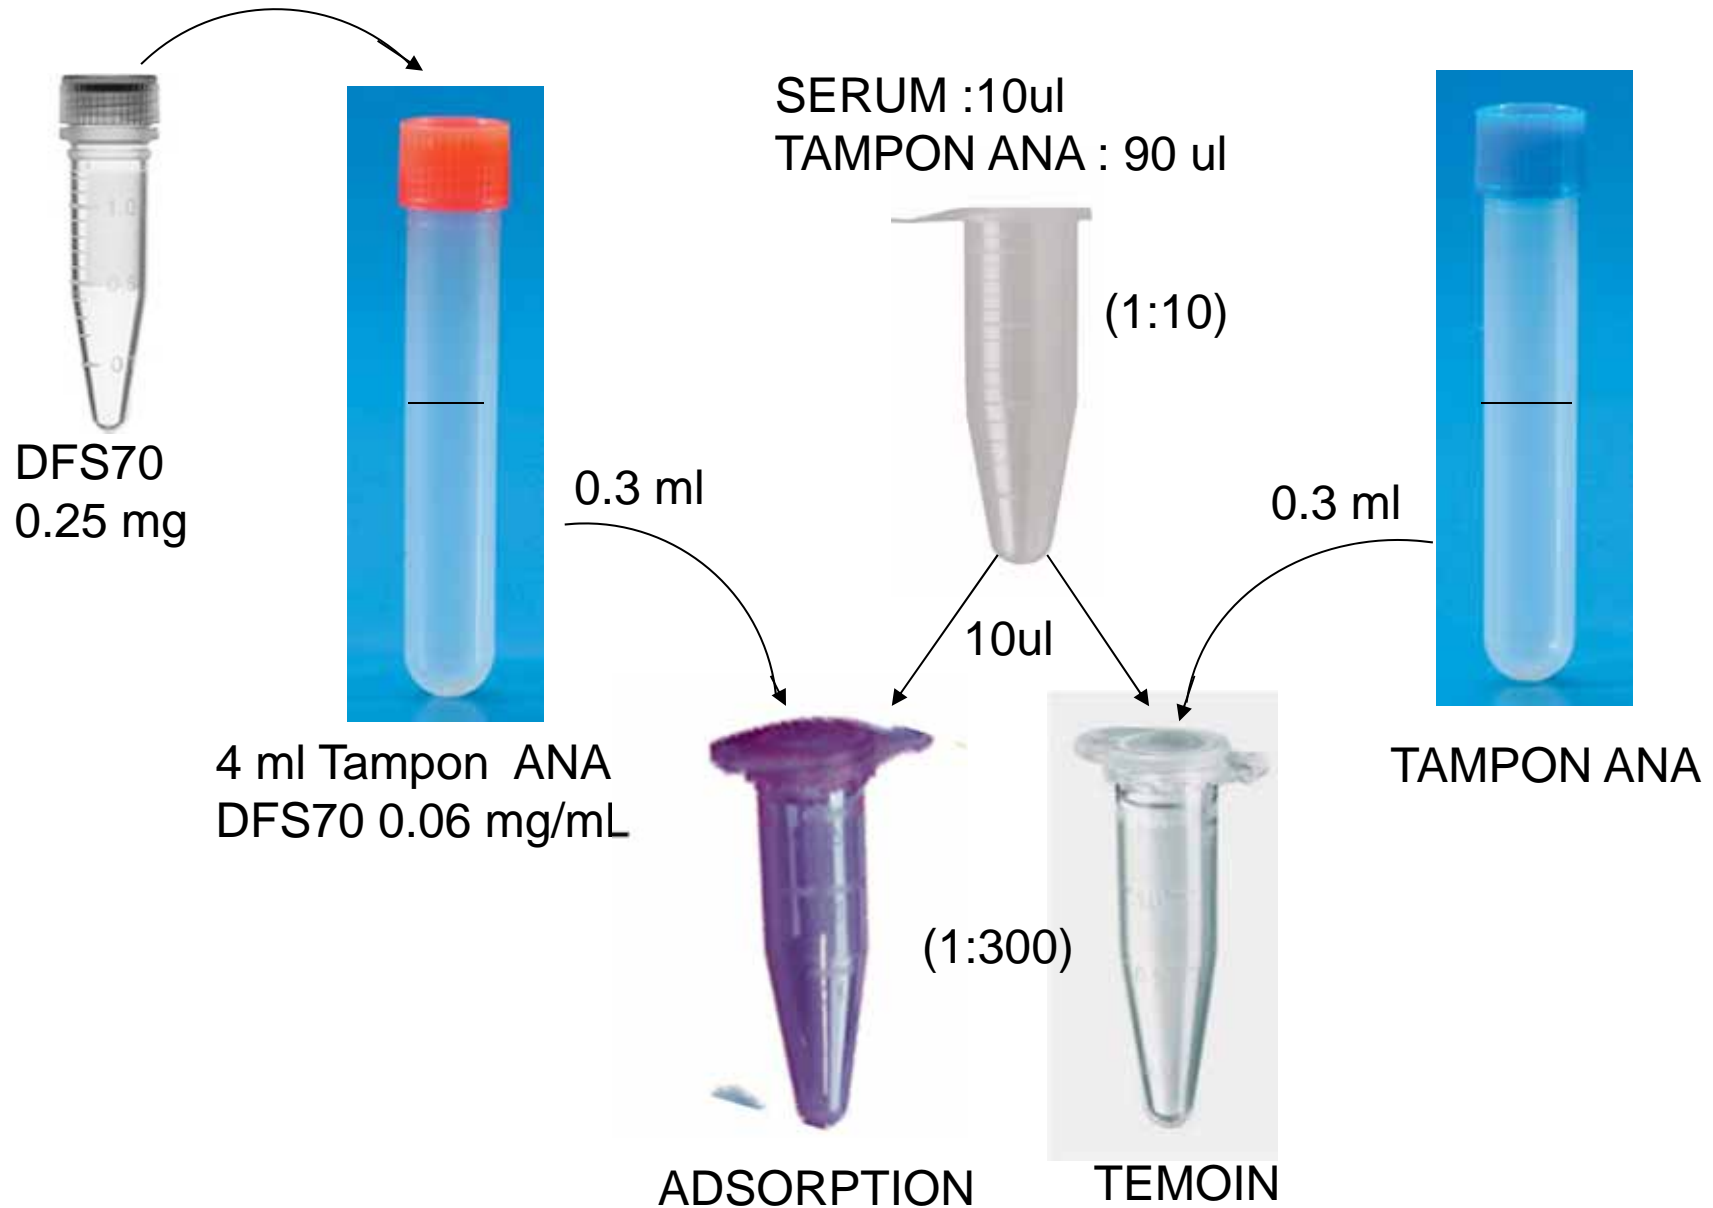

Immunoabsorption protocol for anti-DFS70 antibodies

Research use only

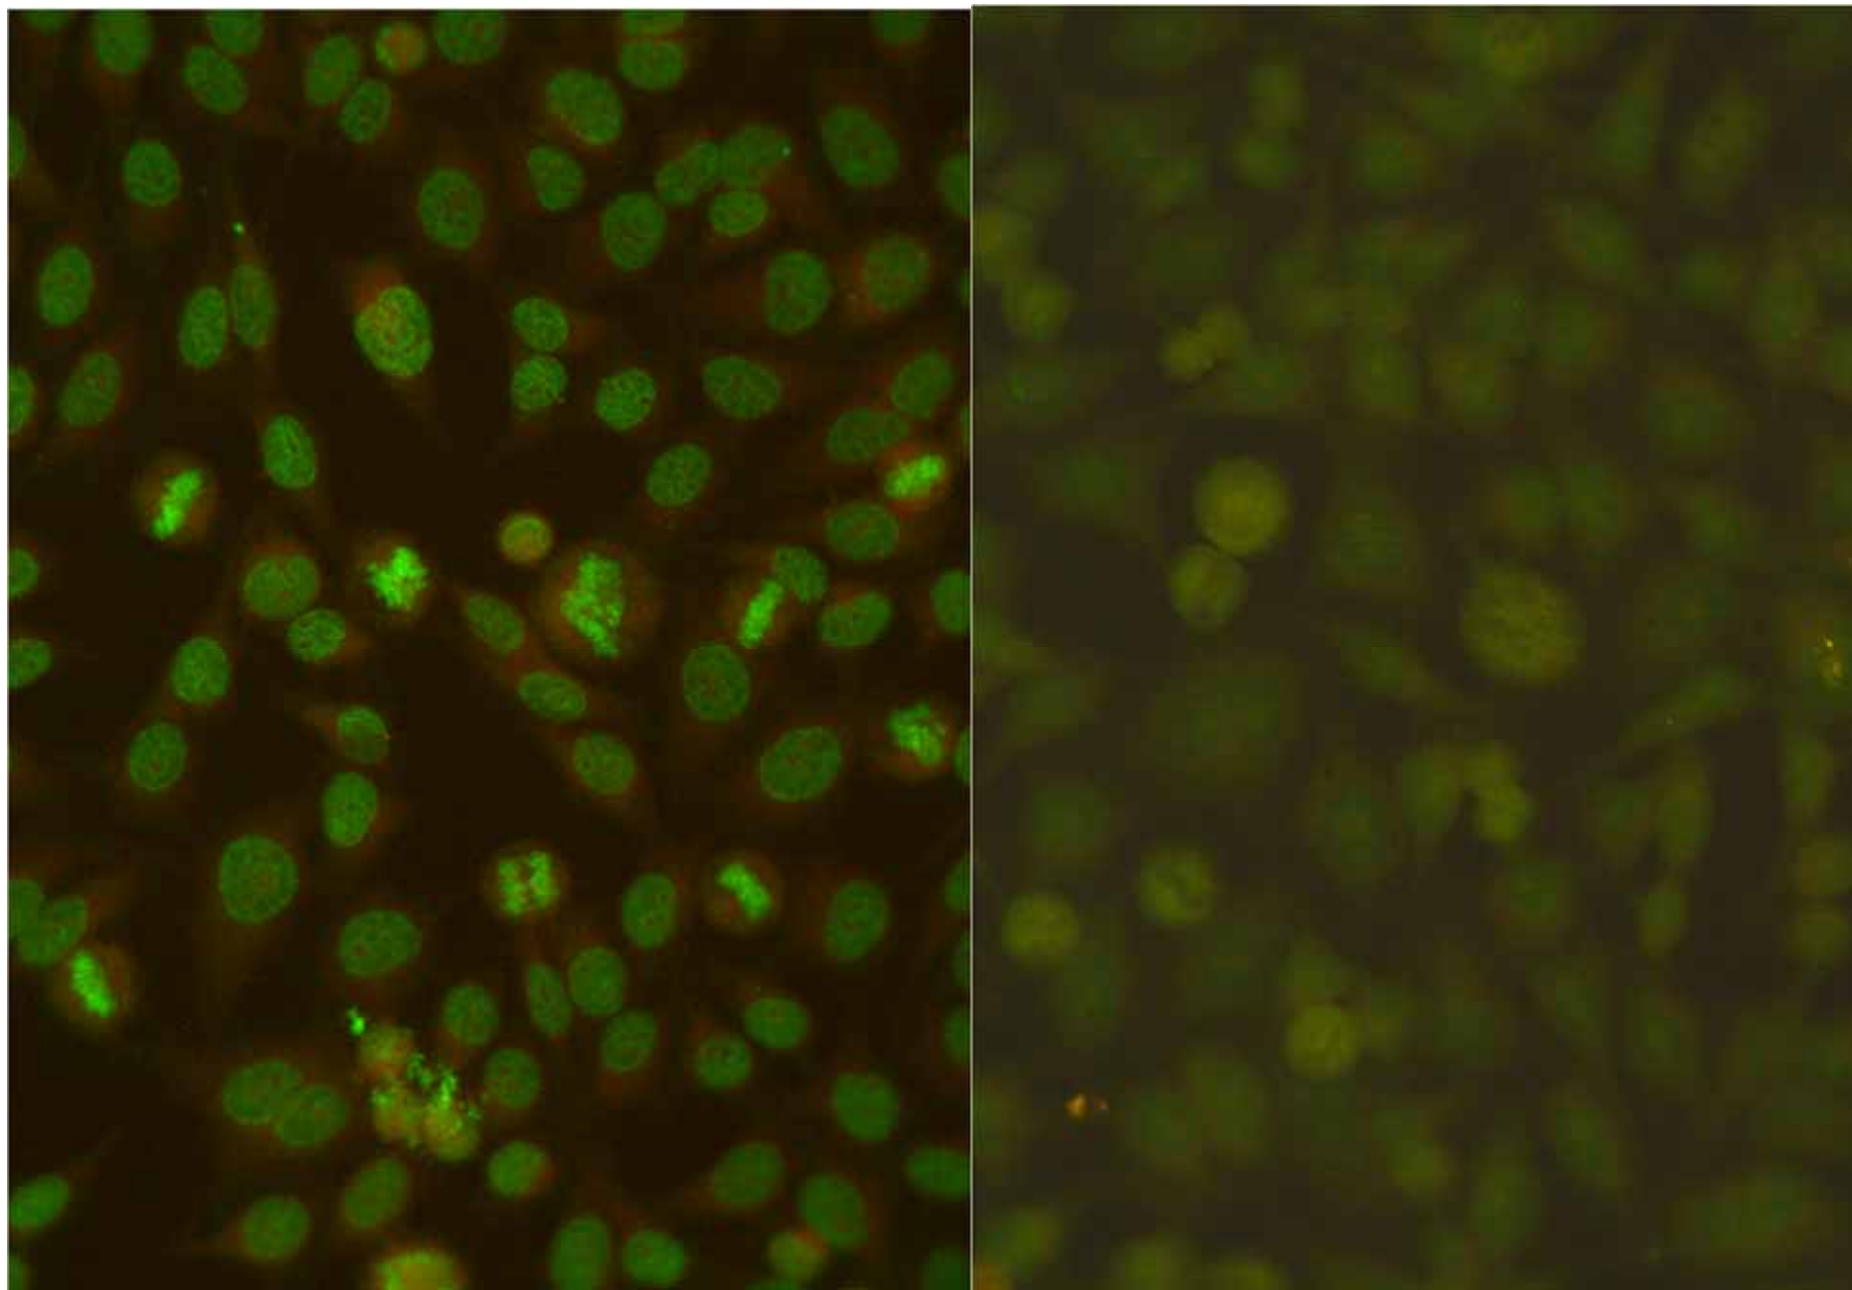

**Figure 1** Outline of the procedure. After reconstitution of the DFS70 antigen in the Sample Dilution Buffer of the respective HEp-2 kit, serum samples are diluted in the Sample Buffer containing DFS70 antigen and tested side-by-side with the non-adsorbed sample. For serum dilutions please refer to the instructions for use of the respective indirect immunofluorescence kit.

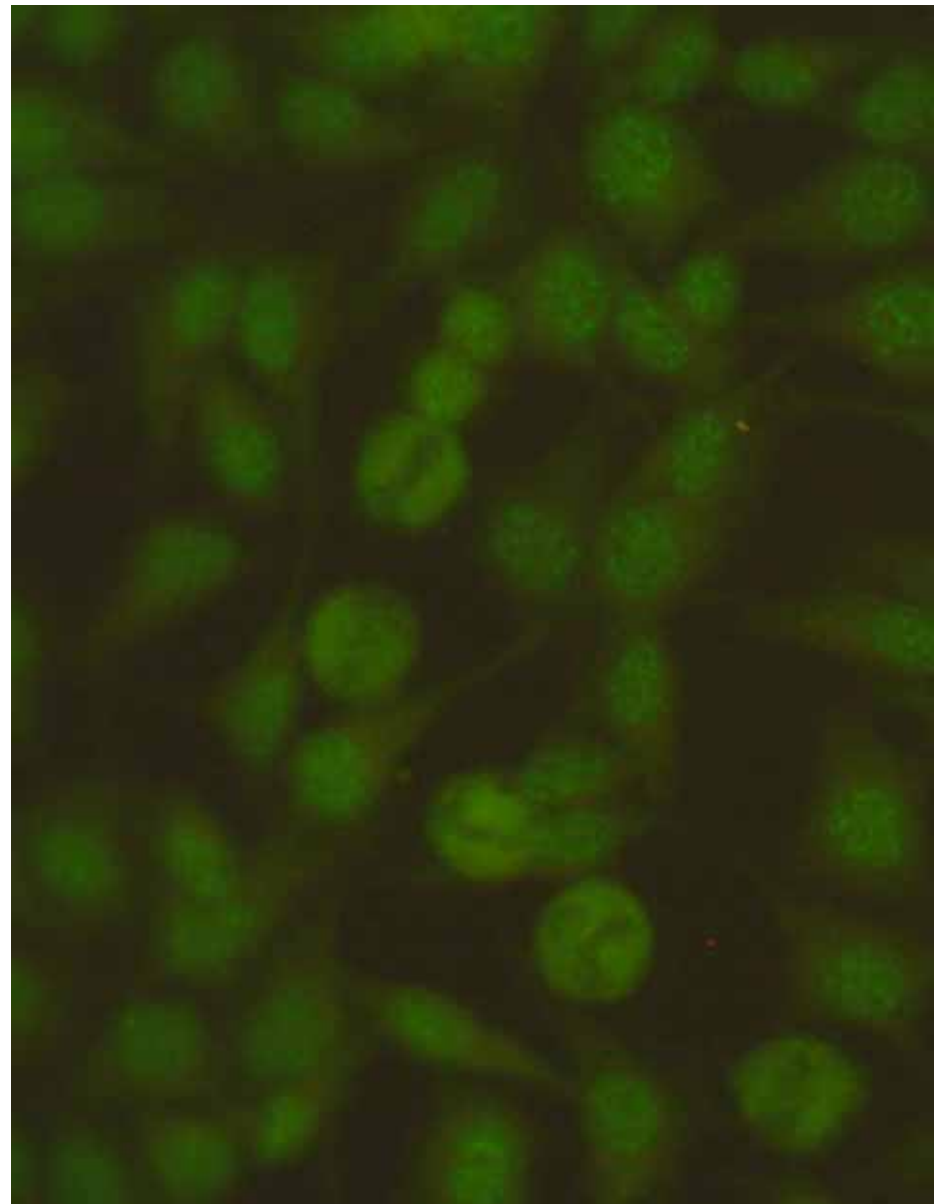

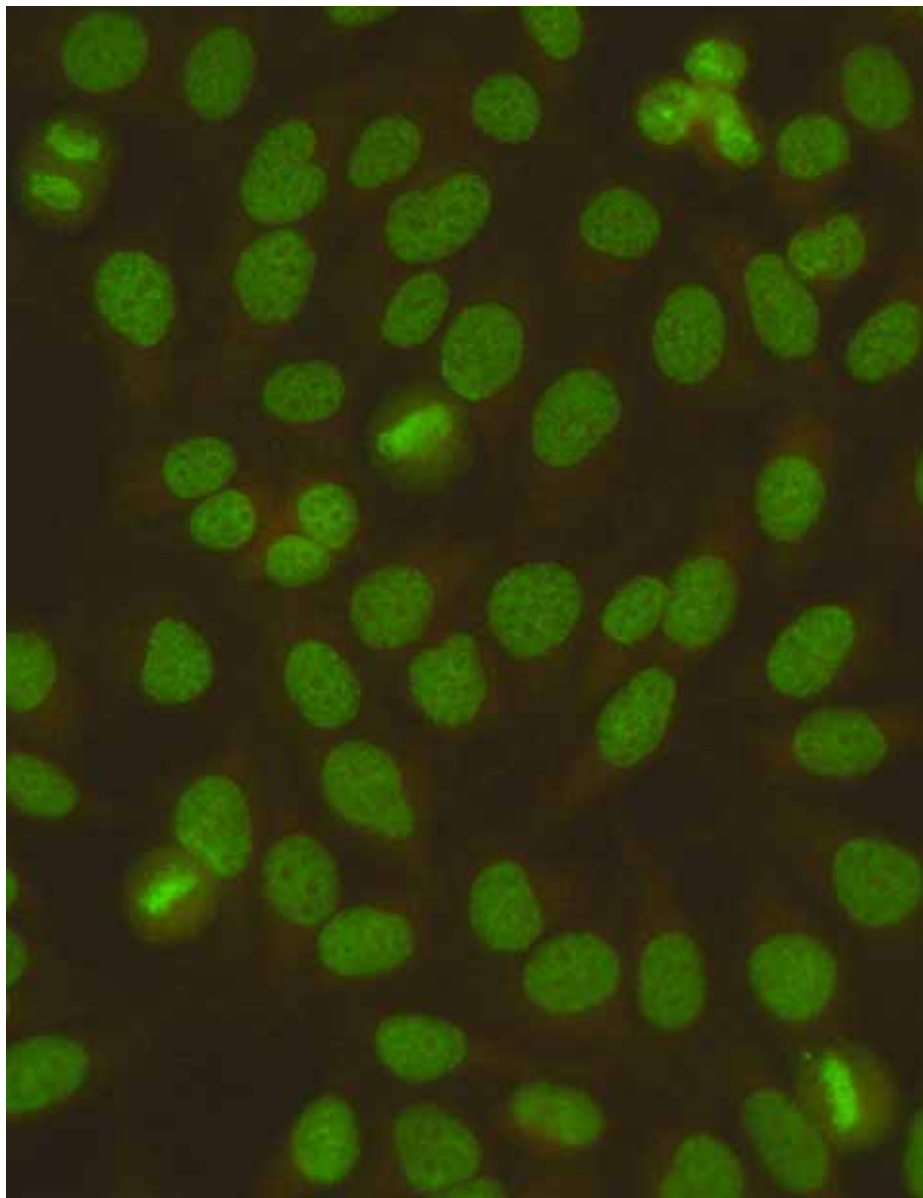

# TECHNIQUE D'INHIBITION POUR ANTI-DFS70

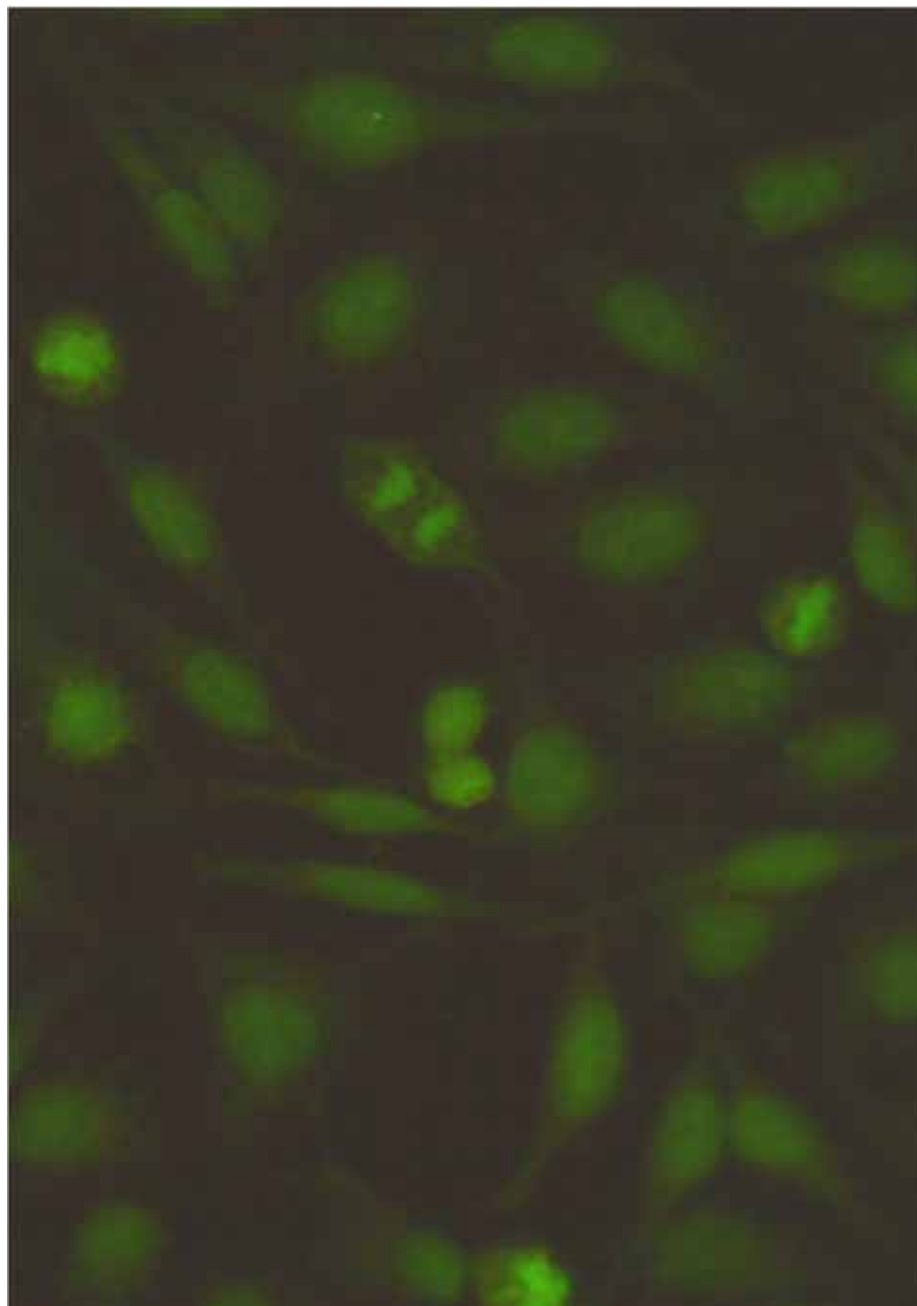

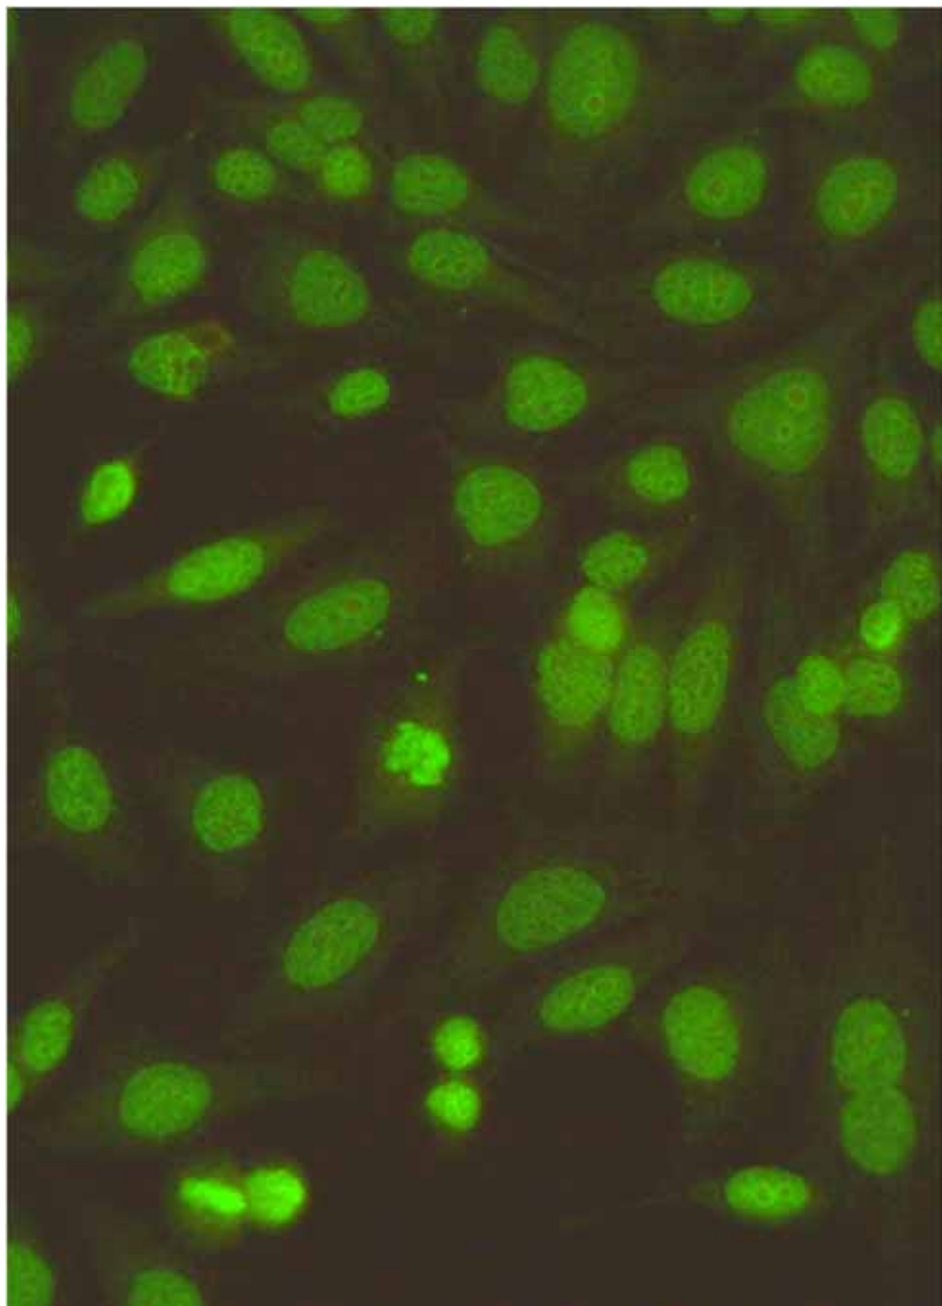

Bos. DFS70 / 75u.

30011 ELISA :117

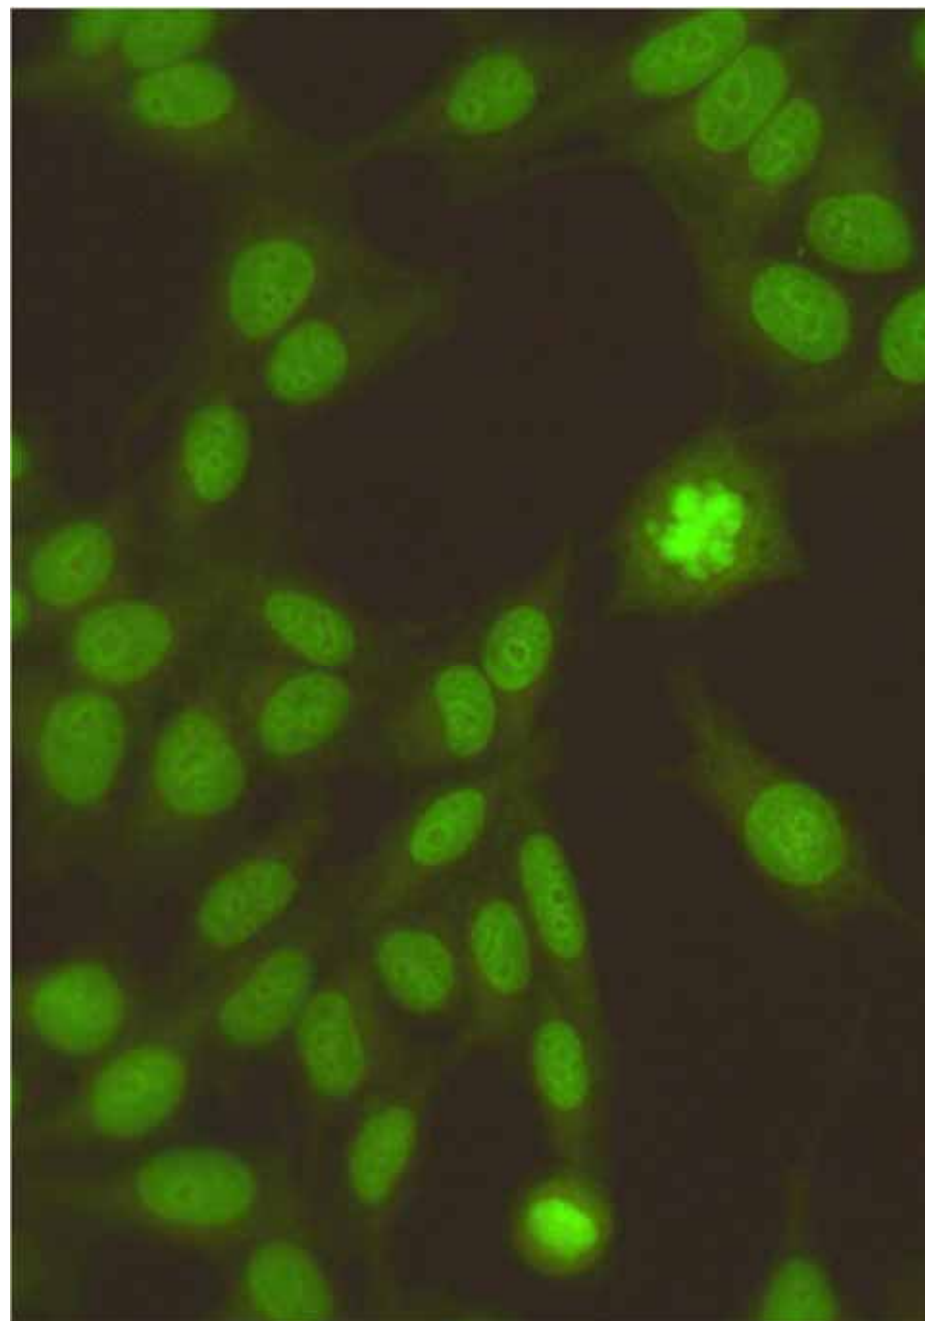

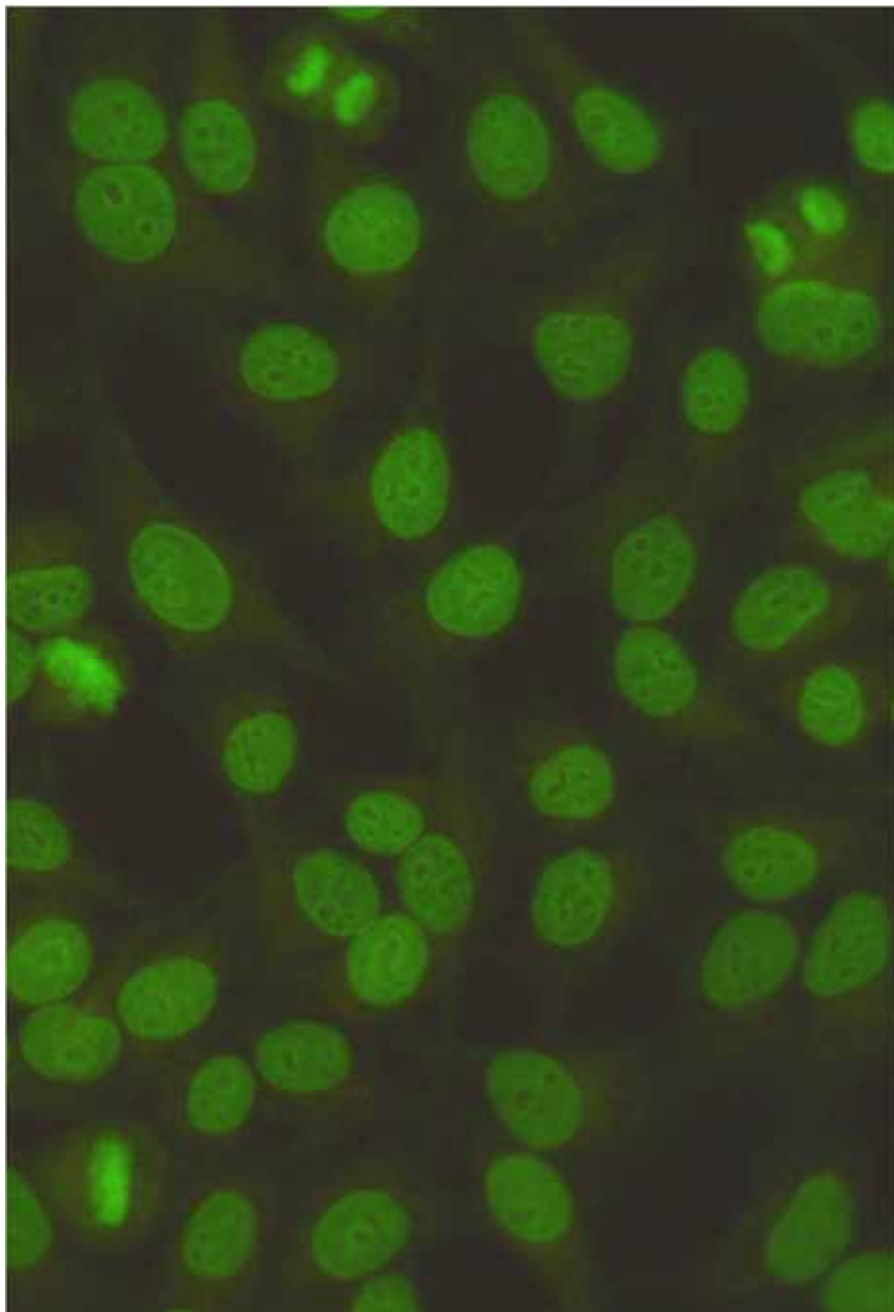

BASQ. DFS70 : 46

GIL. DFS70 : negatif

Elisa			DF570.
